

Service Info

Diamond-encrusted washer

for belt pulley set and toothed belt KITS

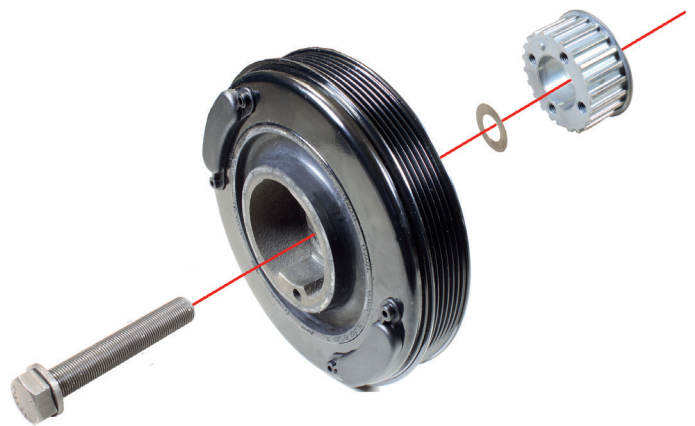

Manufacturer: Audi, Volvo, VW

Models:

Audi: A6
 Volvo: 850, S70, S80, V70
 VW: Crafter, LT, T4

Engines: 2,5 TDI

For current listing refer to catalogue media

The belt pulley set 544 0002 20 comprises a crankshaft vibration damper with main crankshaft bolt and diamond-encrusted washer.

Replacement of the timing belt on the vehicles listed here requires removal of the crankshaft vibration damper.

When replacing the crankshaft vibration damper or after its removal, the manufacturer's specifications require replacement of the crankshaft bolt along with the diamond-encrusted washer (Fig.).

The crankshaft bolt, and the washer are included in all applicable kits. Their special coating in combination with the crankshaft bolt, prevents the vibration damper from becoming loose.

Please observe the vehicle manufacturer specifications!
